

SUBODH UTTAM MUNESHWAR

Software Engineer | Backend & AI/ML Developer | Python | C# / .NET | Flask | Computer Vision

Mumbai, Maharashtra, India | +91 9029920228 | subodhum1603@gmail.com | github.com/SubodhMuneshwar | linkedin.com/in/subodh-muneshwar-47209324b

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in Python, C#, ASP.NET, REST APIs, and AI/ML applications. Experienced in building robust backend systems, image-processing/deep learning pipelines, and database-driven enterprise applications. Passionate about distributed architectures, clean APIs, and scalable AI solutions. CGPI 9.14 (B.E. Computer Engineering, RMCET, Mumbai University) | 2x Smart India Hackathon Finalist.

EDUCATION

B.E. in Computer Engineering | RMCET, Mumbai University

2022 - 2026 | CGPI: 9.14 | Dean's List / Consistent Academic Excellence

Higher Secondary Certificate (HSC) | Patkar Varde College

2020 - 2022 | Percentage: 70.17% | Science Stream (PCM & Computer Science)

Secondary School Certificate (SSC) | St. Thomas Academy

2020 | Percentage: 88.00% | Distinction with High Academic Rank

EXPERIENCE

Software Developer Intern | Rashtriya Chemicals & Fertilizers Limited (RCF), Mumbai

01 Jan 2026 - 28 Feb 2026 | Internship | C#, ASP.NET, Oracle DB, SAP NCo, SAP BAPIs, LDAP, RBAC

- Architected and delivered an enterprise-grade role-based access control (RBAC) platform integrated with SAP and Active Directory.
- Implemented LDAP-based authentication and SAP-integrated role provisioning utilizing SAP BAPIs and custom Function Modules.
- Engineered comprehensive role administration, T-Code assignment, audit logging, real-time authorization synchronization, and session management.

PROJECTS

Diabetic Retinopathy Detection using ML | AI / Healthcare | Aug 2025 - Mar 2026

Medical AI classification with 92% accuracy across 10,000+ retinal scans

- Developed robust Python-based image analysis pipeline using OpenCV and NumPy for noise reduction, CLAHE enhancement, and feature extraction.
- Designed and trained deep CNN classification workflow achieving 92% diagnostic accuracy.
- Built responsive Flask web app for practitioner image uploads, real-time inference, and visualization.

Tech: Python, OpenCV, NumPy, Pandas, CNN, Flask, Matplotlib

Facial Recognition Attendance System | Computer Vision | Jan 2025 - May 2025

Real-time automated biometric identity verification & attendance logging

- Built real-time Python/Flask backend for webcam-driven face detection, landmark alignment, and facial encoding.
- Integrated OpenCV verification with MySQL, yielding 98% recognition accuracy under diverse lighting.
- Automated attendance records, time-stamping, duplicate entry prevention, and exportable admin dashboards.

Tech: Python, Flask, OpenCV, MySQL, NumPy, Bootstrap

Foodies Goodies - Recipe & Diet Planning Platform | Full-Stack Web | Jan 2024 - Dec 2024

Personalized nutrition & recipe discovery with Edamam API integration

- Crafted responsive full-stack platform featuring 100+ categorized recipes, bookmarking, and dynamic search.
- Integrated Edamam REST API for live nutritional breakdown and dietary filters.
- Implemented personalized BMI-based meal suggestions and DB-backed user management (PHP/MySQL).

Tech: HTML5, CSS3, JavaScript, PHP, MySQL, Edamam REST API

NAAC Accreditation Management Portal | Enterprise Hackathon | Sep 2024

Streamlined criterion-wise institutional compliance & documentation system

- Architected role-based dashboards for faculty, department heads, and admin reviewers.
- Automated criterion-wise progress metrics reducing manual overhead by 60%.
- Ensured secure document storage and audit-ready data extraction.

Tech: HTML5, CSS3, JavaScript, PHP, MySQL, RBAC

TECHNICAL SKILLS

Programming Languages Python (Expert, Primary), C# (Advanced, Enterprise), JavaScript (Advanced), SQL (Advanced), PHP (Intermediate)

Backend & Systems: Flask (Expert), ASP.NET (Advanced), REST APIs (Expert), SAP NCo & BAPIs, RBAC & LDAP (Advanced)

AI, ML & Vision: OpenCV (Advanced), CNN / Deep Learning, NumPy & Pandas (Expert), Scikit-Learn, Image Preprocessing

Frontend & UI/UX: HTML5 & CSS3 (Expert), JavaScript ES6+ (Advanced), Bootstrap (Advanced), UI/UX Design

Databases, Cloud & Tools: MySQL (Advanced), Oracle Database, Microsoft Azure, AWS, Git & GitHub (Expert)

Core Concepts: Data Structures & Algorithms, OOP, Distributed Computing, DBMS

ACHIEVEMENTS & LEADERSHIP

Smart India Hackathon 2024 Finalist (National Finalist)

Ministry of Education & AICTE | 2024
Selected among 118 finalist teams nationwide for biomimicry-based grey water management solution.

Smart India Hackathon 2023 - Top 5 in India

Ministry of Education & AICTE | 2023
Ranked Top 5 of 258 teams for menstrual waste disposal & sanitation solution.

Workshop Instructor - Full Stack Web Dev

RM CET | Mar 2024
Co-conducted 5-day hands-on workshop for 50+ juniors on HTML, CSS, JavaScript, and responsive UI.

Student Secretary - RM CET

Aug 2024 - May 2026
Represented 500+ undergraduates; steered technical events and hackathons.

District & University Youth Festival

University of Mumbai | 2023-2025
Represented college in poster-making, painting, cartooning, street plays.

Training & Placement Cell Volunteer

RM CET | 2023-Present
Assisted recruitment drives, technical assessments, mock interviews.

CERTIFICATIONS

IBM SkillsBuild - Agentic AI: From Learner to Builder

IBM | Jul-Aug 2025

Deloitte Data Analytics Job Simulation

Forage / Deloitte | Sep 2025
